

Basic/General Financial Reporting

In response to requests for basic financial statement and reporting models, this section has been developed. It includes a basic analysis report model and financial statement. Both of these documents are in Adobe Acrobat PDF format and have been created to be tailored to the users specific needs.

Within each section is a description of how the section is intended to be used. Your own information should be typed in as needed. Should you have any questions regarding this section or suggestions for future versions, please do not hesitate to contact the National Finance Department.
