Your Challenge:

“As we fought in the trenches in past wars, we are now needed to join America in a new challenge — the war against alcohol and drug abuse. And it is a War — the battlefields are in our homes, schools, and workplaces. It threatens the very fiber of American family life.

However, this war will be fought without guns. Instead, we will win the battle against substance abuse by educating our youth and offering support to our families through the AADAA program. This program will serve as a tool to communicate, inspire, and motivate your Post to act as a clearinghouse for information and support for those in need.”

-PNC Ted Leszkiewicz

WARNING: It is important to remember that the AADAA program should act as simply a resource center for information on chemical dependency.

We are NOT licensed counselors or consultants.

Our purpose is to direct people in need to the correct resources on the subject of chemical dependency and recovery.

The Competition

Youth Awareness Program

Every year, AMVETS holds a contest for students in grades K-12 intended to raise awareness about substance abuse and prevention.

Themes:

2017-2018: Be a Winner, Be Drug Free

2018-2019: There is no use for Drug Abuse

2019-2020: Be Smart...Don't Start

2020-2021: Stop Abuse...Don't Use

2021-2022: Be a Winner, Be Drug Free

Judges will take into consideration adherence to the theme, originality, literary construction and legibility.

Deadline: National entries must be received by **July 1**. Local and state deadlines vary.

- ★ *Essays submitted by 6th through 8th grade must be 250 words or less*
- ★ *Essays submitted by 9th through 12th grade students must be 350 words or less*

Our Commitment

Community Awareness Program

In an effort to promote community-level education programs and to act as a referral service to the citizenry, the AADAA program encourages local AMVETS Posts to work with and support existing community programs.

GOALS:

- ⇒ Support prevention programs within the local school districts.
- ⇒ Encourage the development of programs that foster self-esteem and coping skills among students.
- ⇒ Educate and inform the community about the problems of chemical dependency.
- ⇒ Make facilities available for community groups conducting awareness programs.
- ⇒ Monitor laws and regulations that affect the community in its ability to respond to the care and treatment of chemically dependent.

As a community, we want to ensure that children grow safely into adulthood without the burdens caused by alcohol and other drug related issues.
